

Wawel Dragon

Cracow Legends - Dragon Legend

It was some hundred years ago in the time of Prince Crac - the legendary founder of the city of Cracow - virgins permanently disappeared from Cracow and really nobody knew exactly what had happened with them. But one day the Cracow inhabitants found out that a fire-breathing and dangerous dragon lived under the Wawel Hill in a dark den.

Dragon's Den - Dragon's Lair

The Dragon's Den is a cave of 81 meters (266 feet) which can be visited, but is closed in winter time. The Dragon's Lair is reached by using a staircase leading from the Wawel Hill into the den. In front of the cave's exit a dragon skulptur stands, breathing fire every 3 minutes.
